

FOR PARENTS AND GUARDIANS

The V-MAT *Parent Guide*

Everything you need to enrol, sign in and help your child learn with Mr. Saji Raghav and Vimo — step by step, with pictures of every screen.

WELCOME TO THE FAMILY

Thank you for choosing V-MAT

V-MAT helps children aged 5 to 16 become fast, confident and accurate with numbers. Your child learns from short lessons with Mr. Saji Raghav and our friendly guide **Vimo**, practises with maths games and worksheets, and you can see the progress every week.

10–15 minutes a day

Little and often works best — a short lesson or game most days.

Practise in writing

Printed worksheets make the new skill stay for life.

See the progress

Your family page shows every lesson, streak and V-GEM.

What is inside V-MAT

Lessons

Short video-style lessons. Mr. Saji Raghav teaches, Vimo makes mistakes, and your child puts them right.

Maths games

Every game is built on the lesson — each move needs a correct answer.

Worksheets

Printable pages with your child's name on them, which earn V-GEMS.

V-GEMS

Rewards for real practice — never bought, never for clicking.

Daily 5-minute check

Remember · Revise · Speed — and a speed score every day.

Live classes

Small live classes with a V-MAT teacher (on the Live plan).

Contents

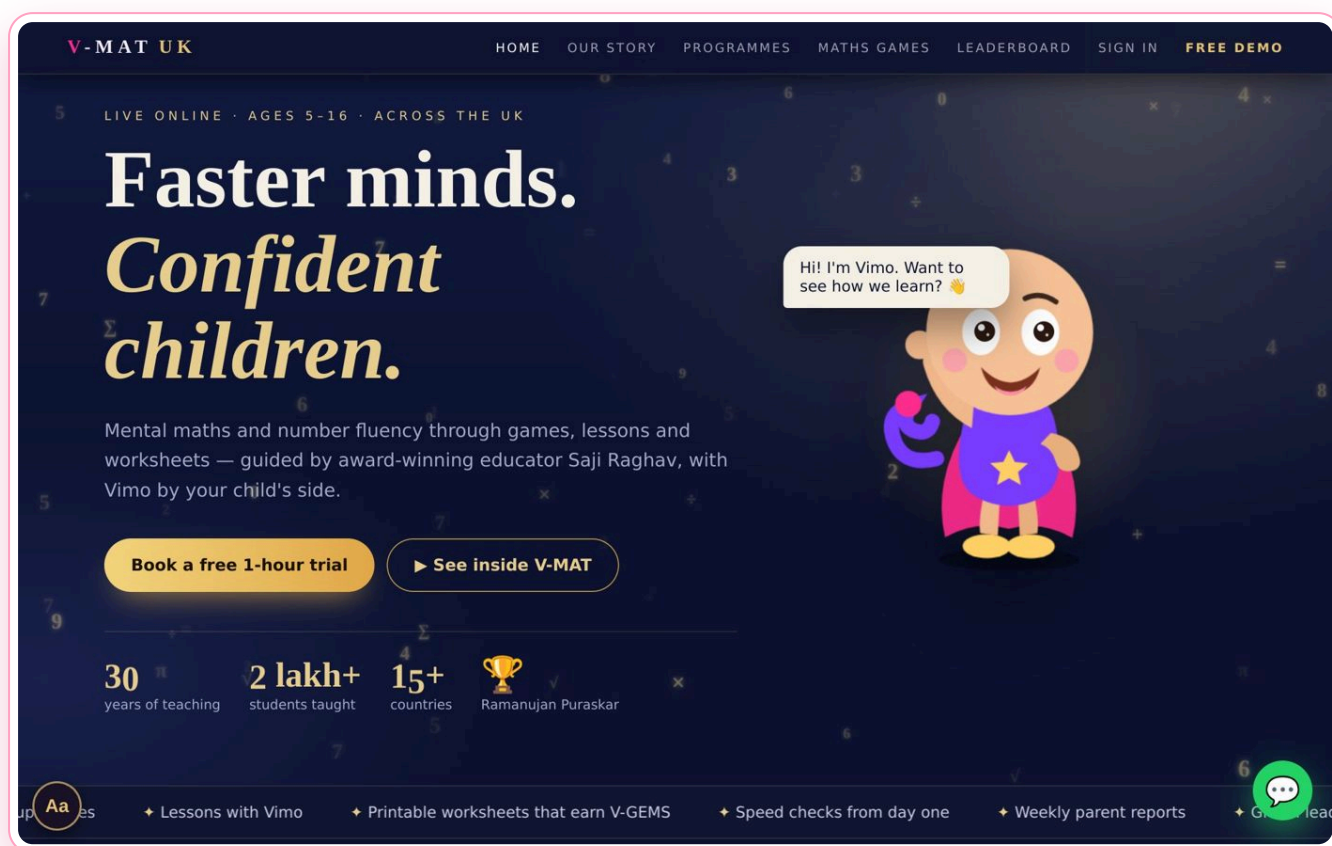

1	Enrol in a few minutes	3	8	V-GEMS — the rules	11
2	Plans, prices and discounts	4	9	Daily check and Fix-it Lab	12
3	The monthly plan	6	10	Following progress	13
4	Signing in and your family page	7	11	Family settings	14
5	Your child's learning page	8	12	Payments, live classes, privacy	15
6	Watching a lesson	9	13	Quick answers and help	16
7	Worksheets and writing practice	10			

PART 1

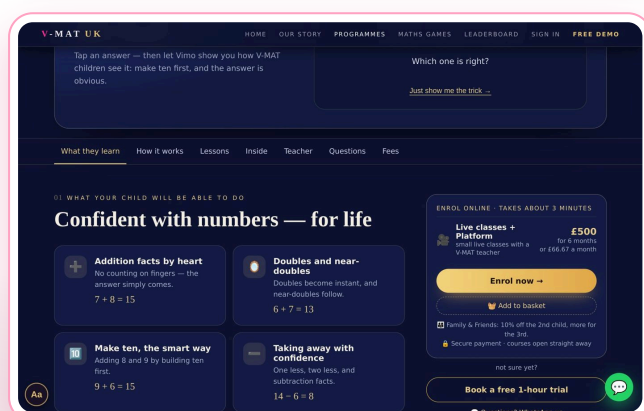

Enrol in a *few minutes*

You can enrol directly on our website, on a laptop or a phone. You do not need an account first — it is created for you while you enrol.

- 1 Open our website** — **vmat.uk** in the UK, **vmat.in** in India, **v-mat.us** in the USA and Canada. Prices are shown in your own money (£, ₹ or US\$).
- 2 Choose a programme.** On the home page or the Programmes page, press **Enrol now** on the course that suits your child's age. Not sure? Press **Course details** first to see every lesson, or book a free trial.
- 3 Several courses or children?** Press **Add to basket** on each course. A small basket button follows you on every page — press it when you are ready.

The home page — every programme has an Enrol now button.

Each course page shows the prices and an Enrol now box.

Tip: the course page lists every module and lesson. The first lessons are often free — press **“Free — try it”** to try one with your child before you enrol.

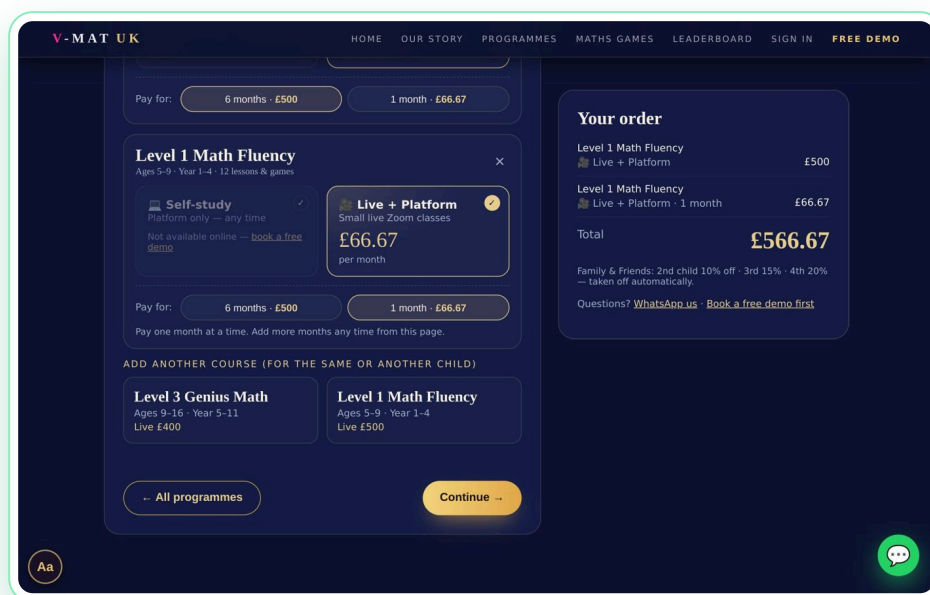

Good to know: enrolment takes about 3 minutes. Have your e-mail address and your child's first name ready.

PART 2

Plans, prices and *discounts*

For every course in your basket you choose **a plan** and **how to pay**. The total on the right updates as you choose.

Plan	What your child gets
 Self-study Platform only	All lessons, games and worksheets, at any time. Starts instantly.
 Live + Platform	Everything in Self-study plus small live classes with a V-MAT teacher. We message you on WhatsApp within one working day with the class times.
How to pay	How it works
Full course 6 months / full level	Pay once. Every module opens at once and stays open for the whole period.
1 month monthly plan	Pay only the monthly amount. Module 1 opens now , and each new month opens the next module (see page 6).

Step 1 of the checkout — choose the plan and “Pay for: 6 months or 1 month” for each course.

Family & Friends discount

Taken off **automatically** for every extra child in your family:

- ✓ **2nd child — 10% off**
- ✓ **3rd child — 15% off**
- ✓ **4th child and more — 20% off**

Special coupon? On special occasions we share a coupon code. Type it in the box “**Have a special coupon?**” on the payment step and press **Apply**. You will see the saving straight away.

Fair and clear: the price you see is the price you pay. No hidden fees, no automatic renewals.

Your family details

- 4 **Your details** — your name, mobile / WhatsApp number, e-mail and a password you choose. Tick the box to confirm you are the parent or guardian. *Already with us?* Press **Sign in** instead — your children are already there.
- 5 **Your children** — the first name and age of each child. Press **+ Add another child** for brothers and sisters, then choose **who each course is for**. Children never need their own e-mail.

The screenshot shows the V-MAT UK registration page. At the top, there are navigation links: HOME, OUR STORY, PROGRAMMES, MATHS GAMES, LEADERBOARD, SIGN IN, and FREE DEMO. The main form area has two columns. The left column contains:

- E-mail (your login): priya.demo@example.com
- Choose a password (6+ characters): [password field]
- ☒ I am the child's parent or guardian and I agree to the [privacy promise](#).
- YOUR CHILDREN section with two rows:
 - Child's first name: Aanya, Age: 8
 - Child's first name: Rohan, Age: 6
- + Add another child (Family & Friends discount)
- WHO IS EACH COURSE FOR? section with two rows:
 - Level 1 Math Fluency (Live): Aanya
 - Level 1 Math Fluency (Live): Rohan
- Buttons: -- Back and Continue --

 The right column shows a 'Your order' summary:

- Level 1 Math Fluency Live + Platform - Aanya: £500
- Level 1 Math Fluency Live + Platform - 1 month - Rohan: £66.67
- 10% discount
- Family & Friends discount: -£6.67
- Total: £560
- Family & Friends: 2nd child 10% off - 3rd 15% - 4th 20% — taken off automatically.
- Questions? [WhatsApp us](#) · [Book a free demo first](#)

 At the bottom left is a language selector (Aa) and at the bottom right is a chat bubble icon.

Step 2 — one parent account for the whole family. The Family & Friends discount appears on the right.

Pay securely

- 6 Tick **"I agree to the Terms and the Refund policy"** and press **Pay securely**. The secure **Razorpay** window opens — pay by card, UPI, net banking or wallet (the options depend on your country).
- 7 The moment the payment is done, the golden door opens and Vimo welcomes your child. **The courses are unlocked straight away**, and your receipt arrives by e-mail.

The screenshot shows the 'Your V-MAT basket' page. It has a dark blue background with a white text area on the left and a dark blue order summary on the right. The left area contains:

- ENROL - TAKES ABOUT 3 MINUTES
- Your V-MAT basket
- Choose a plan for each course — start today.
- Pay securely section with a coupon code field and an Apply button.
- ☒ I agree to the [Terms](#) and the [Refund policy](#).
- Pay £560 securely button.
- Secure payment by Razorpay, Cards, Apple Pay, Google Pay.
- Receipt by e-mail.
- Buttons: -- Back and a chat bubble icon.

 The right area shows the 'Your order' summary, identical to the one in Step 2.

Step 3 — coupon box, agreement and secure payment.

The screenshot shows the welcome page after payment. It features a dark blue background with a golden archway in the center. A cartoon character, Vimo, is standing in the archway. The text 'Welcome to V-MAT, Aanya & Rohan!' is displayed. Below the archway, there are two rows of course information:

- Aanya → Level 1 Math Fluency Live + Platform - unlocked
- Rohan → Level 1 Math Fluency Live + Platform - Module 1 open - unlocked

 At the bottom, there are buttons for 'Start learning now' and 'Family page'. A small note at the bottom right says: 'Paid £560 - Order V1 - your receipt is on its way by e-mail. Monthly plan: when this module is finished, the next one opens with one tap from the family page. Live classes: we will message you on WhatsApp within one working day.'

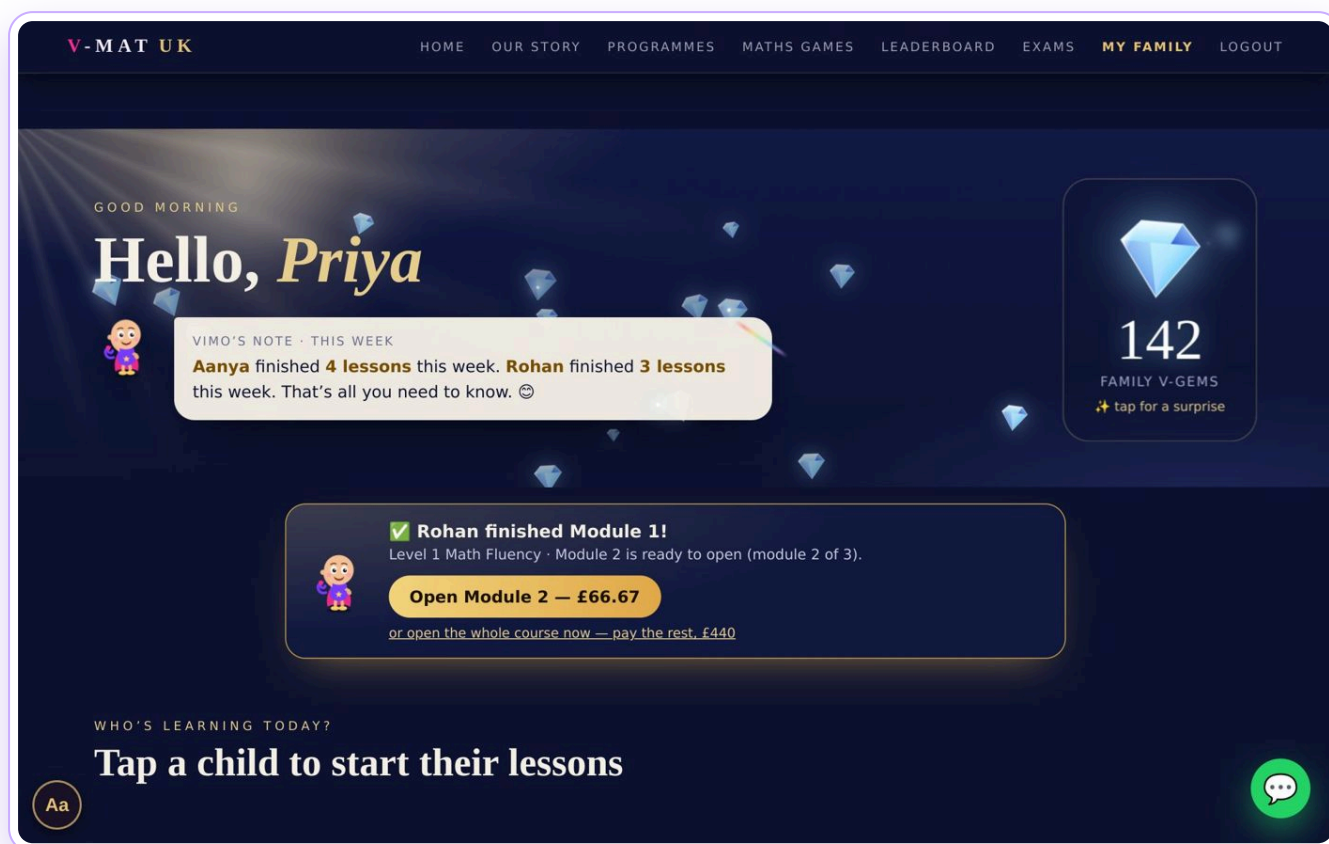

Paid — the welcome page lists each child's unlocked course.

PART 3

The *monthly* plan

Prefer to pay month by month? The monthly plan opens the course one module at a time — and you only ever pay the monthly amount.

- 1 **Month 1** — you pay the monthly amount and **Module 1** opens.
- 2 **When Module 1 is finished** (every lesson played to the end) — or when the month is nearly over — a gold card appears on your **family page** and on your child's page.
- 3 Press **Open Module 2 — £66.67**. You see only the monthly amount, pay, and the next module opens at once. This repeats until the last module.

The family page — Rohan finished Module 1, so the gold “Open Module 2” card is ready. (Example prices from vmat.uk.)

☀️ Fast learners

A child who finishes every lesson early may open the next module after **14 days** in the current one — no need to wait for the month to end.

🔒 Open everything later

Under the gold card: **“open the whole course now — pay the rest”**. You pay only the full price minus the months already paid.

📧 Reminders

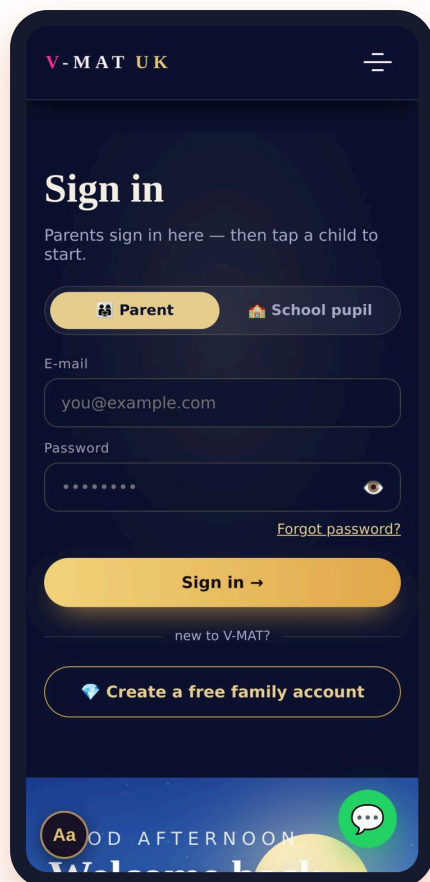

We e-mail you 7 days and 1 day before the paid month ends, with a one-tap button to open the next module.

💖 Nothing is ever lost

If a month runs out, every lesson finished, streak and V-GEM stays saved. One tap continues.

PART 4

Signing in and your *family page*

Sign in — choose “Parent”.

- 1 On the website press **Sign in** (top right, or the ☰ menu on a phone).
- 2 Choose **Parent**, type **your e-mail and password**, and press **Sign in →**.
- 3 Your **family page** opens. Under “**Who's learning today?**” each child has a card.
- 4 Press **▶ Start learning** on your child's card — their own learning page opens.
- 5 To come back, press **Switch child** or **Family page** on the child's page.

Forgot your password? Press “**Forgot password?**” on the sign-in page. We e-mail you a link to choose a new one.

One family login. Children do not need their own e-mail or password — they always start from your family page.

Each child's card shows V-GEMS, the day streak and lessons this week, with Start learning and Progress.

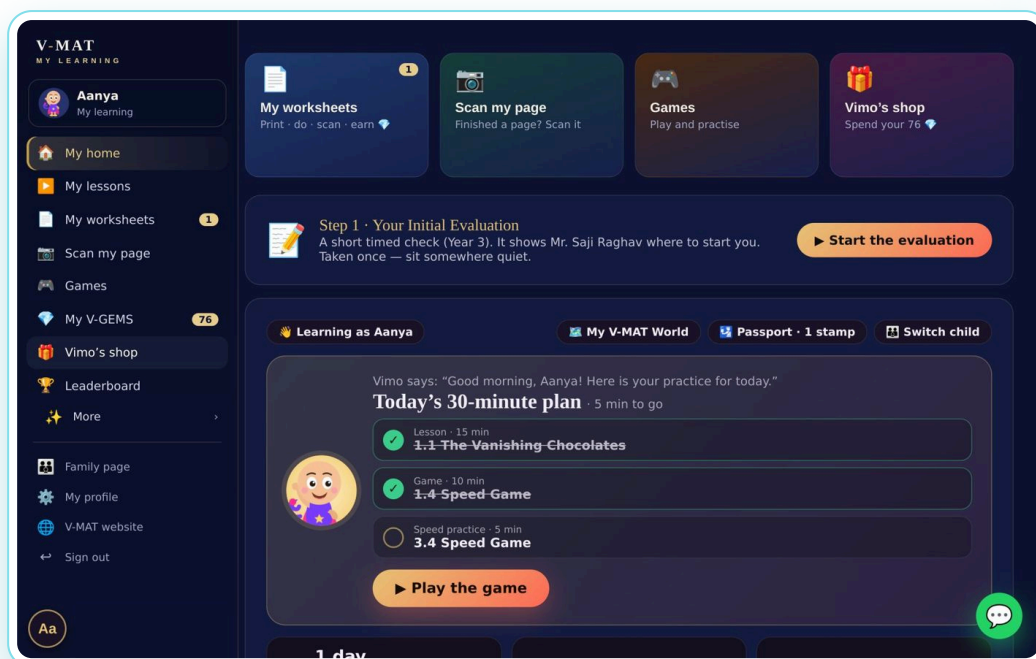

Picture PIN for young children (optional)

So brothers and sisters do not open each other's learning by mistake, you can give each child a secret of **4 pictures**. Family page → **Picture PIN** → choose the child and 4 pictures → **Save PIN**. The child taps the pictures to open their page.

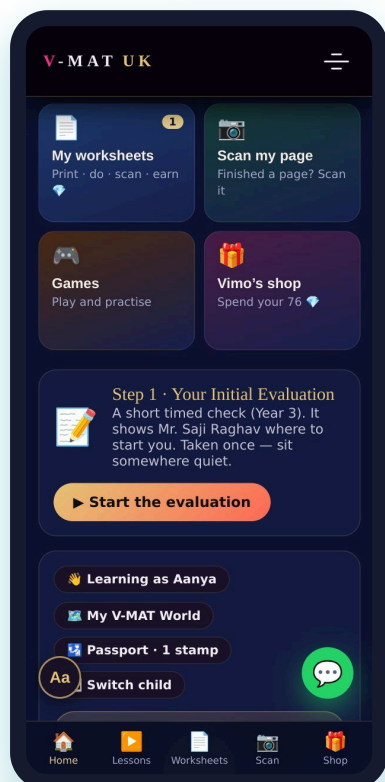

PART 5

Your child's *learning page*

Everything your child needs is on one page. Vimo greets them and shows **Today's 30-minute plan** — the next lesson, a game and a quick practice.

On a laptop — the menu on the left, today's plan in the middle.

On a phone — big buttons and a bar at the bottom.

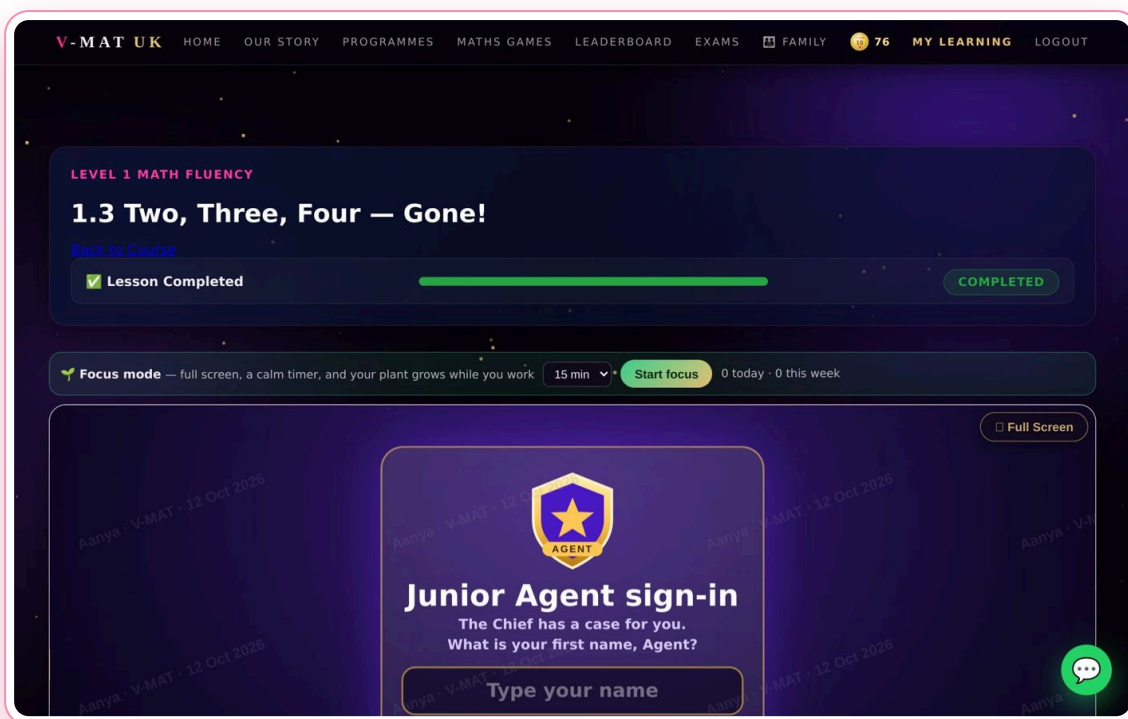

Button	What it does
▶ My lessons	Lessons and games in order, module by module.
📄 My worksheets	Download your child's own printable copy.
📷 Scan my page	Scan a finished worksheet page to collect V-GEMS.
🎮 Games	Maths games to practise the lessons.
💎 My V-GEMS	The V-GEM treasure and level.
🛍️ Vimo's shop	Fun outfits for Vimo, bought with V-GEMS.
🧠 Daily 5-minute check	A quick daily check and speed score.
🗺️ My V-MAT World	The whole course as a map.

Start here: new children may see “**Step 1 · Your Initial Evaluation**” — a short check that shows Mr. Saji Raghav where to start. Take it once, calmly.

PART 6

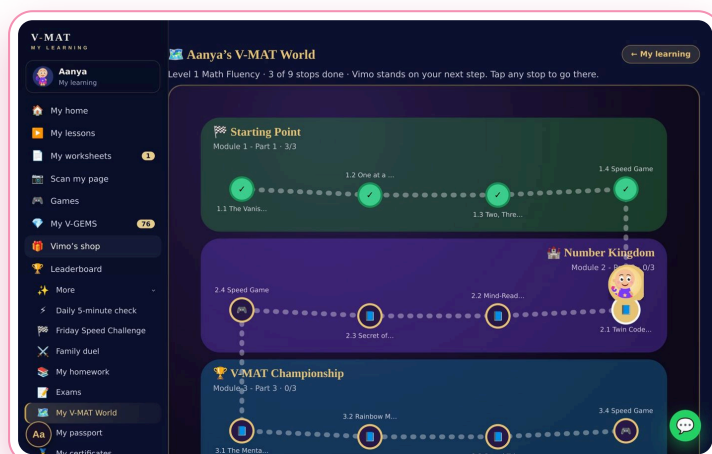

Watching a *lesson*

- 1 On the child's page press the next lesson in **Today's plan**, or open **My lessons** and choose one.
- 2 The lesson opens full-screen. Vimo asks your child's name, then Mr. Saji Raghav teaches step by step. Your child answers, drags and taps as they go.
- 3 When the lesson is played **to the end**, it gets its ✓ tick, earns points, and the next step lights up.

A lesson — the progress bar at the top shows how far your child has come.

The learning map

My V-MAT World — ✓ done, ★ next (where Vimo stands), ○ open, 🔒 opens later.

Sound on: lessons talk — use headphones in a busy room.

Finish to the end: a lesson only counts when it is finished. Closing it half-way does not tick it.

Sit with them for the first lesson or two. After that most children love to go on their own.

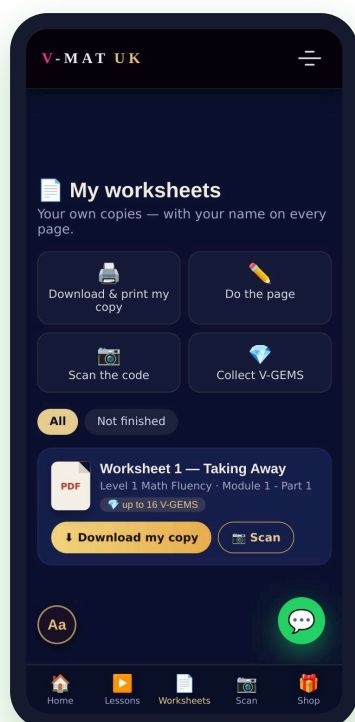

Games after lessons: each game practises the lesson before it — every move needs a correct answer.

PART 7

Worksheets and *writing practice*

Why writing matters — a note from Mr. Saji Raghav

The games and digital practice are wonderful, and many children love them. But a new skill becomes **permanent** when the child also **writes it with their own hand**. Writing slows the mind down just enough to understand each step. We **strongly recommend** one worksheet page a few times a week — it is not compulsory, but it makes the biggest difference.

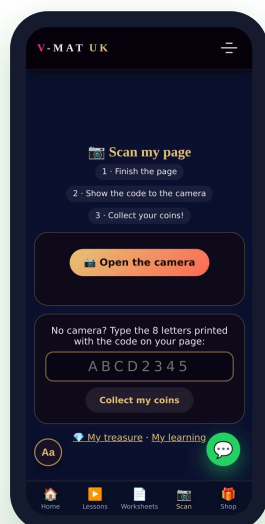

My worksheets — every worksheet of the course in one place.

- 1 On the child's page press  **My worksheets**.
- 2 Press  **Download my copy**. A PDF is made **with your child's name** on every page, and a small V-GEM code on the pages that earn gems.
- 3 **Print** it at home (or open it on a tablet and write on paper). Your child does the page — neatly, in pencil.
- 4 Press  **Scan** and show the code to the camera — or type the 8 letters printed under it. The V-GEMS arrive at once.

Locked worksheets open together with their module.

Each copy is personal. The codes on it belong to your child only and work once — a brother, sister or friend scanning it gets nothing. Download a fresh copy whenever you need one.

Scanning a page

Scanning works inside V-MAT on a phone, tablet or laptop camera. **Nothing is uploaded** — the picture stays on your device. If the camera does not open, type the 8-letter code instead.

For the toughest pages (10 V-GEMS) you will get an e-mail **“Please check your child's worksheet ”**. Look at the page and press approve — one tap in the e-mail, or on the family page under **Worksheets & V-GEMS**.

PART 8

V-GEMS — *the rules*

V-GEMS are V-MAT's reward coins. They are earned only by **real learning** — never bought with money, never for just clicking.

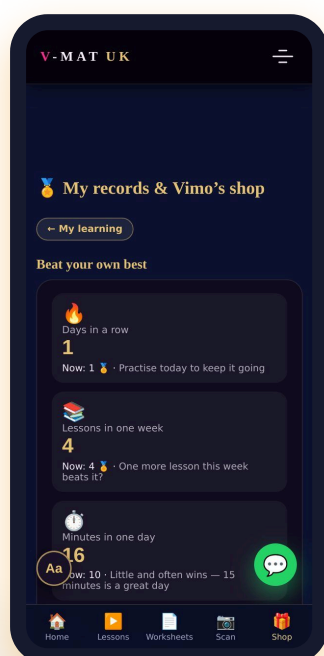

How to earn	V-GEMS
Learning on V-MAT — finished lessons, practice time and quizzes add points	Every 100 points = 10 V-GEMS
A worksheet page — simple	1 gem, at once
A worksheet page — tough	5 gems, at once
A worksheet page — toughest / test	10 gems, after a parent's 

The fair-play rules

- ✓ Each worksheet page pays **once** per child.
- ✓ Up to **100 worksheet V-GEMS a day**, and one scan every 20 seconds.
- ✓ A parent may **take back** a page's coins within 48 hours if the page was not really done.
- ✓ The V-GEM treasure **never goes down** — not even when the leaderboard starts a new season.
- ✓ V-GEMS have **no money value** and cannot be exchanged for money.

My V-GEM Treasure — new coins drop in with a “ching”.

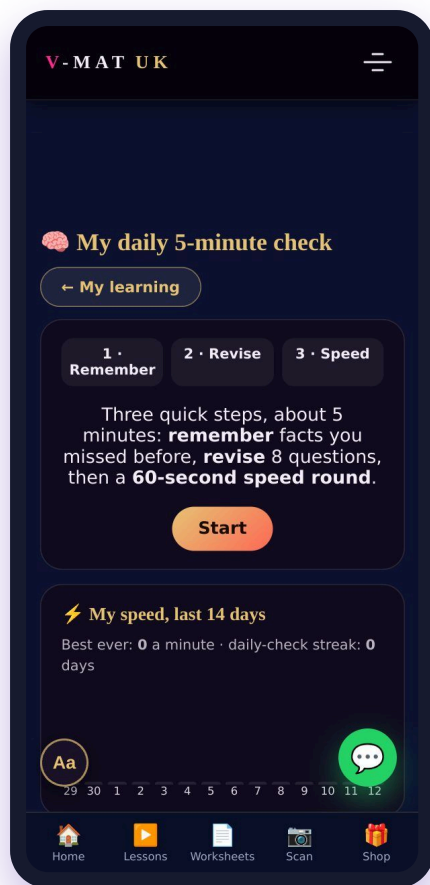

Spending V-GEMS

In **Vimo's shop** your child dresses Vimo with fun hats, glasses, pets and backgrounds. Spending never reduces the treasure count — the treasure shows every gem ever earned. Gem **levels** (Bronze Collector and up) celebrate steady effort.

Talk about the gems: ask “How many V-GEMS did you earn today, and how?” — children love to explain.

PART 9

The daily check and the *Fix-it Lab*

My daily 5-minute check.

The daily 5-minute check

Three quick steps, about five minutes, once a day:

- | | |
|---------------------|---|
| 1 • Remember | Up to 5 facts your child missed before come back today. |
| 2 • Revise | 8 calm questions at your child's level. |
| 3 • Speed | A 60-second round — the right answers give today's QPM (questions per minute). |

The QPM of the last 14 days is drawn as a line, so you can watch the speed grow.

The Fix-it Lab

Every wrong answer from a quiz goes into your child's own **Fix-it Lab**. It comes back on later days until it is answered right on two different days — then it is **fixed** for good. No mistake is wasted.

A good daily routine: daily check (5 min) → one lesson or game (5–10 min) → a worksheet page a few times a week.

More to enjoy

Practice buddies

Two children keep a streak together — brothers and sisters at once, friends with the friend's parent's approval.

Maths passport

Each game comes from a country of the world — finishing it adds a stamp and a fun fact.

Leaderboard

Points for real practice. Children are shown by first name and initial only.

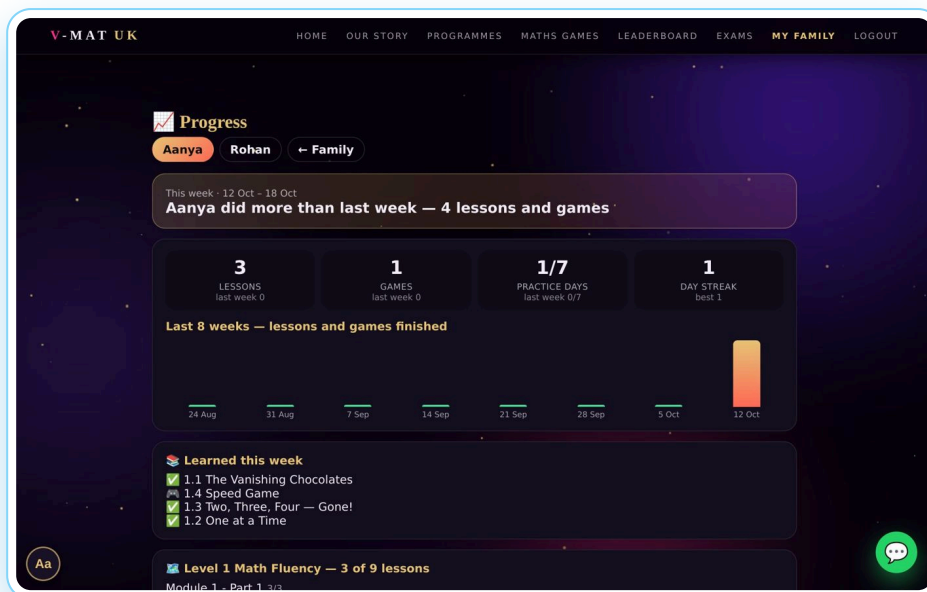

Birthdays and festivals

Vimo celebrates your child's birthday and the big festivals on the learning page.

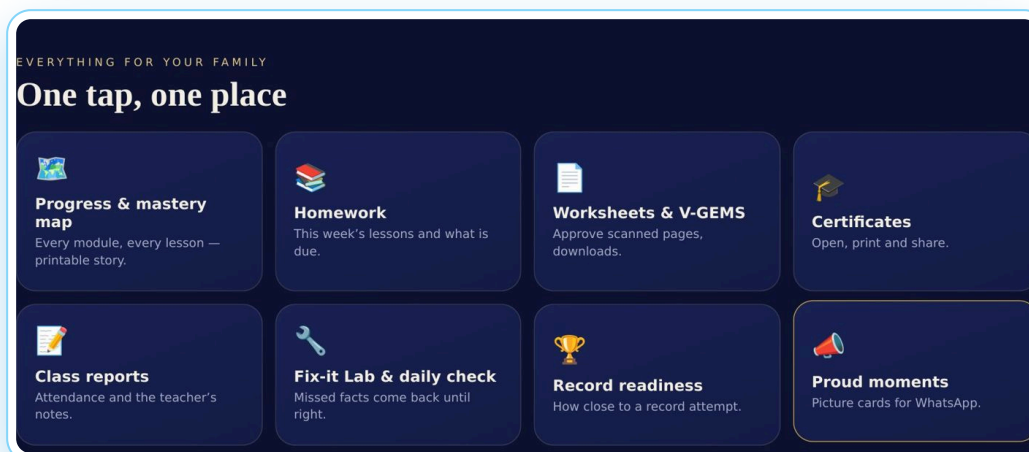

PART 10

Following your child's *progress*

- 1 On your family page press  **Progress** on your child's card.
- 2 You see **this week compared with last week**: lessons, games, practice days and the streak, the last 8 weeks at a glance, and how far through each module your child is.

The progress page — the same numbers as the weekly progress e-mail.

Family page → “One tap, one place”: progress map, homework, worksheets, certificates, class reports, Fix-it Lab and more.

Weekly e-mail

Every week you receive a short progress e-mail — no need to sign in to see how it is going.

Certificates

Issued automatically when a module or a course is finished. Print or share — each has a code anyone can check on our website.

Proud moments

A beautiful picture card (first name only) to share with grandparents on WhatsApp.

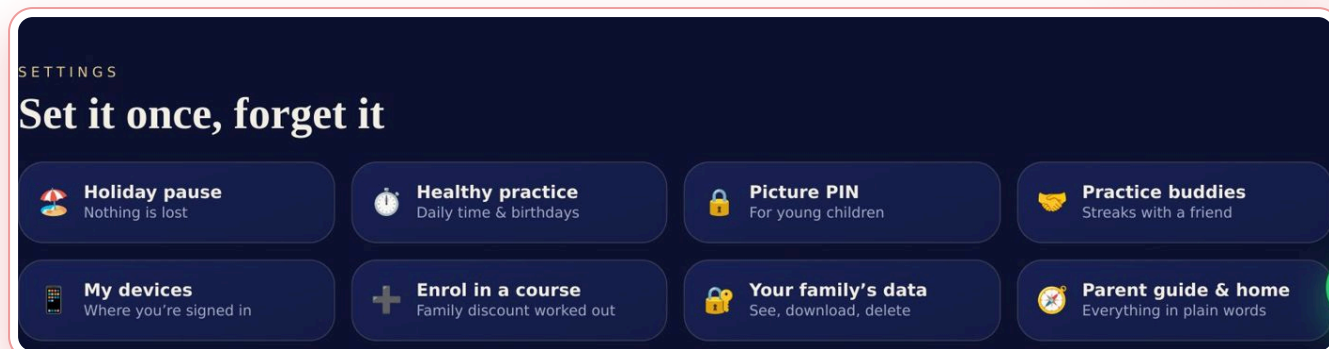

Class reports

On the Live plan: attendance and the teacher's notes after each class.

PART 11

Family *settings*

At the bottom of your family page, under “Set it once, forget it”.

Holiday pause.

Holiday pause

Going away? Pause a child for **1 to 4 weeks**. The lessons rest, no reminders are sent, and the holiday days are **added to the end** of the access — no paid day is lost. Back early? End it, and the unused days come back.

Healthy practice

Set a sensible daily time and your child's birthday (for Vimo's birthday party).

My devices

Each child can be open on **one device at a time**. Opening the child on a new device closes the old one — so please do not share a child's learning with another child. Brothers and sisters each have their own profile and never close each other. Your own parent login works on up to 3 devices. You can sign any device out here.

Add a child

Family page → **+ Add a child** (up to 8). Then enrol them — the Family & Friends discount is worked out automatically.

My devices.

PART 12

Payments, live classes and *privacy*

Payments and renewals

- ✓ All payments are made through **Razorpay**'s secure payment window. V-MAT never sees or stores your card details.
- ✓ A **receipt** is e-mailed to you after every payment.
- ✓ **No automatic renewals.** We remind you by e-mail **7 days** and **1 day** before access ends; you choose whether to continue.
- ✓ To add a course or a child later: family page → **Enrol in a course**, or press **Enrol now** on any course.
- ✓ Refunds follow our **Refund policy** (link at the bottom of every page of the website).

Live classes

- ✓ On the **Live + Platform** plan we message you on **WhatsApp within one working day** with your child's class times.
- ✓ Until the first class, your child can already start the lessons on the platform.
- ✓ After each class the teacher's notes appear under **Class reports** on your family page.

Your child's privacy and safety

- ✓ Children have **no e-mail of their own**; they always learn through your family login.
- ✓ In public places (leaderboard, certificates) children appear by **first name and initial only**.
- ✓ Family page → **Your family's data**: see and **download** everything we hold, or ask us to **delete** a child or the whole family (with 7 days to change your mind).
- ✓ Worksheet photos (optional) are private and deleted after 30 days.

The “Aa” button

The round **Aa** button at the bottom-left of every page makes the text larger and easier to read — helpful for younger children and grandparents alike.

PART 13

Quick answers and *help*

If...	Then...
I forgot my password	Sign-in page → Forgot password? → follow the e-mail link.
A lesson shows a lock 	Its module has not opened yet. On the monthly plan, open the next module from the gold card on your family page.
A lesson did not get its ✓	It must be played to the very end. Open it again and finish it.
There is no sound	Check the device volume and that it is not on silent; tap the lesson once to start the sound.
“Opened on another device”	The child was opened somewhere else. Go back to the family page and press Start learning again.
The camera does not scan	Allow the camera when asked, hold the page flat in good light — or type the 8 letters under the code.
I cannot find a worksheet	Child's page → My worksheets . Worksheets of later modules open with the module.
I want a second child to join	Family page → + Add a child , then enrol — the discount is automatic.
We are going on holiday	Family page → Holiday pause (1–4 weeks). No paid day is lost.
The payment did not go through	No money is taken for a failed payment. Try again, or another card — or WhatsApp us.

We are here to help

WhatsApp: the green button at the bottom-right of every page of our website.

E-mail: info@vmat.uk

Websites: vmat.uk · vmat.in · v-mat.us · vmatwebsite.com

Our promise: every V-GEM, badge and certificate is earned by real learning. No adverts, no betting, no luck — just maths, joy and confidence.

THANK YOU

Little and often. *Every day counts.*

Ten calm minutes a day, a worksheet page in your child's own handwriting, and a word of praise from you — that is how fast minds and confident children are made.

— Mr. Saji Raghav, Founder, V-MAT Academy
